

Bullard® eclipse

****starting at:
\$4495**

NEW PERSONAL THERMAL IMAGER

The Bullard Eclipse is the fire service industry's first low-cost, lightweight, personal-issue thermal imager designed for every firefighter. This ultra-small imager, weighing 1.5 pounds, is ergonomically shaped to fit in the palm of a firefighter's hand and easily attaches to a firefighter's gear. Engineered for navigation and search and rescue, the Eclipse features a super lightweight design, easy one-button operation, quality imagery, 1000 degree dynamic range and Eclipse Control Panel™ software. The navigational function of the Eclipse supported by an advanced thermal imager in the lead can help firefighters speed searches and enhance crew accountability.
